THE TOASTS. By 10 o'clock the tongues of the party had been sufficiently loosened for Mayor Work-

man, who had been chosen master of cere-monies, to call the company to order. He announced that Mr. Germain would open the speech making.

Mr. Germain rose solemnly to his feet and Mr. Germain rose solemnly to his feet and proposed the health of the President of the United States. His speech lasted just three seconds, and he sat down with a tear in his eye and a sad sea-wave sigh in his bosom.

J. D. Lynch of the Heraid came to his feet at this moment and delivered a characteristic speech. D. Freeman proposed a toast to Gen. Miles's staff, which was responded to by Lieut. Dapray.

Before the handsome Lieutenant had uttered 10 words he came to the conclusion that he had a cold, caught on the evening before while making numerous farewells, and several other gentlemen were called on in quick succession, and, between them, the toast was nobly responded to.

Mayor Workman then made a few happy remarks, in which he referred to Gen. Miles's reception by the Board of Trade and citizens of Los Angeles when he took up his headquarters in this city. The Mayor then called on Gen. Miles, and the old soldier rose to his feet amid loud applause.

GEN. MfLES'S SPECCH.

"Mr. President and gentlemen," said the General, "I certainly appreciate the honor General, "I certainly appreciate the honor bestowed upon me by you and the citizens of Los Angeles this evening. I feel that it is a great distinction to be received by the representatives of such a city as Los Angeles, and I thoroughly appreciate your kindly feeling toward me. I came to your city only three years ago a stranger, and I leave you today with the same feelings as the young man who departs from the bosom of his family for the first time. Yes, I know that I have made many friends to whom I shall always look back with a feeling of the warmest regard.

# A LONG-DISTANCE RIDER

# Arrested for Embezzlement in San

Charles M. Anderson, the professional long-distance rider, was arrested by Dep-uty Sheriff Tommy Botello, yesterday, on a charge of embezziement, alleged to have been committed at his home in San José, last month. On the 22d of October a card was received by Sheriff Kays from the Sheriff of Santa Clara county, stating that Anderson was wanted, and to look out for him. The card was turned over to Tommy

Sheriff of Santa Clara county, stating that Anderson was wanted, and to look out for him. The card was turned over to Tommy Botello, and Monday afternoon that officer saw Anderson on the streets, but, as there was no attempt at conceaiment, he thought that the matter had been adjusted, and did not moiest him. Later, however, he telegraphed Sheriff Sweigert, telling him that Anderson was here, and asking if he was still wanted. He received an answer stating that he was, and yesterday morning started out in search of his man. About noon he walked into the Turf Exchange, where he found Anderson looking over the blackboard, and asked him to take a walk with him. Anderson did so, and when they got outside Botello told Anderson about the telegram and placed him under arrest, taking him to the County Jail. Nothing was known at the Sheriff's office about the affair beyond what the telegram stated. Anderson was seen at the jail by a Times reporter last night, and when asked about the affair, said that he would gladly give any information that he possessed, but that he knew absolutely nothing. He had been in San Francisco for three weeks, going about as usual, and this was the first that he had heard of him being wanted for any crime. So far as he knew, ne had never taken a cent from any man, and he could not conceive of what the charke was. He had plenty of friends in this city, but had not called on any of them, prefering to wait for further developments. Anderson was taking things very coully, and did not seem at all worried over the matter, expressing himself as confident that he would be released today. The only explanation that he can give is that he must have been mistaken for another man, and that it is a case of mistaken ideutity. An officer will arrive today for the purpose of taking him back to San José.

Anderson is well known all over the State, and has ridden several races in this city, his last being a 100-mile contest with Card Pugh, the San Bernardino man. He has a number of friends here, who were greatl

The Southern Pacific Franchise De ferred Another Week-No Extra Policemen for Election Day-The City Printing Awarded-A Street

The City Council met in extra sessiyesterday morning to dispose of the ac-cumulated business. There were present Councilmen Book, Barrett, Bosbyshell, Chandler, Collins, Cohn, Hanley, Lovell, Mathews, Meriarty, Teed and President Humphreys—12 in all.

The City Surveyor reported adversely to constructing a wing dam at the Daly-street bridge, in the Arroyo Seco. He favored instead grading Daly at Swain street, by which all danger of overflow would be re-moved, and the water would be held back in case of heavy rains.

The City Surveyor said the cost would be about \$500.

Mr. Hanley moved to refer to the Board of Public Works, with power to act in conjunction with the City Surveyor. The motion received only nine affirmative votes, and was lost, Messrs. Morairty and Lovell

and was lost, Messrs, amount, voting in the negative.

Mr. Lovell explained that there was some defect in the title to the land on which the bridge stood, and he would not yote to appropriate \$500 while the matter The report of Justice Austin for the conth of October was referred to the

Mr. Lovell said that the Mayor did not do right in refusing to sign legal warrants after they had passed the board. He thought there was a right way and a wrong way to

there was a right way and a wrong way to do these things.
Charles J. Fox protested against the resolution of intention passed at the last meeting making the sidewalks on Hawkins street 13 feet wide. The protest was filed on motion of Mr. Barrett.
Mr. Bosbyshell asked how many sprinkling carts were employed by the city. Mr. Barrett said there were now 35. Mr. Bosbyshell suggested that the number might be further reduced and the services of an overseer dispensed with. Mr. Barrett explained that the latter attended also to other work and the matter was dropped.
The report of the Board of Public Works was read and all its recommendations adopted.

Deeds were presented by D. S. Wilson and M. L. Wicks, and also of J. W. Ander son, of land for Ninth street, according to their plan. The matter was laid over. NO EXTRA POLICE. A communication was received from the

Chief of Police asking for the appointment of 26 extra policemen, one for each pre-

Amendments were offered to the ordinance as proposed by the railroad company.

pany.

Mr. Cohn offered an amendment that the company file a map with their petition. Also that the company be required to give up all the land between their tract and Pine street from San Pedro to Tennessee streets for public use as a street. Also that they be restricted to a single track in their new franchise.

for public use as a street. Also that they be restricted to a single track in their new franchise.

The Superintendent of Streets offered an amendment that the company shall put their tracks on the established grades of the streets, and shall change them whenever the Council changes the grades. That they shall provide proper culverts where needed, make necessary crossings at the cross-streets, and do all the paving or macadamizing required by the ordinance. If they shall fail to do this within five days after being notified, the work shall be done by the city, and the cost of it assessed upon the company's reality.

Mr. Barrett offered an amendment that the franchise be for 50 years, but, on motion of Mr. Collins, changed it to 30 years.

Mr. Lovell offered an amendment that within 20 days after the acceptance of the franchise by the company, they shall remove their track from San Pedro street from Pine street south to where it enters.

ALL THESE AMENDMENTS

ALL THESE AMENDMENTS were then, on motion of Mr. Barrett, re-ferred to the attorney for the railroad com-keep his partn

pany for him to amend his ordinance as far as he would, and report it back at the next meeting of the Council.

There was also presented by President Humphreys a new offer by Mr. Griffith of a right of way through the Briswaiter tract, but Mr. Barrett objected to lits being read on the ground that it was not the business of the Council. Mr. Griffith should address his offers to the company.

Mr. Hanley again called up the matter of grading the approaches to the Daly-street bridge. It was passed this time—10 to 2, Messrs. Lovell and Moriarty again voting in the negative.

Mr. Mathews then called up again the motion to raise the pay of the drivers of the patrol wagon from 80 to 80. He had voted against it in the morning, but now advocated its passage. It was lost, however, by the following members voting no: Messrs. Book, Bosbyshell, Chandler, Collins and Lovell—5.

SOMETHING NEW.

An ordinance was presented granting D.

F. Donegan permission to erect an elevator at the corner of Fort and Courthouse streets, to lift passengers to the level of the hill

to lift passengers to the level of the hill above, with a walk to take them over to its brow. The work is to be commenced within 30 days and finished within six months, and the fare is to be 5 cents. He is granted for the purpose 25 feet on Fort street by 200 on Courthouse street. The ordinance was referred to the City Attorney.

On motion of Mr. Barrett, the police were directed to see that the openings in the sidewalk to cellar elevators were kept closed except when in actual use.

Surveyor Lamble said the Fort-street sewer could not be earried on below Fourth street according to the plans, as the sewer below Seventh street was too high to receive it—some four feet, he said. The Superintendent of Streets was ordered to lay a sewer down Fourth from Fort to Main streets to connect with the new Fort-street sewer.

surers to connect with the new Fort-street sewer.

Mr. Bairrett stated that he thought he had arranged a compromise on the First-street paying matter, by which Sheerer was to pave west of Vine street, and Austin east. They only waited now word from a Mr. Williams of San Francisco. Thus the business will be satisfactorily arranged in a day or two.

On motion of Mr. Collins the Superintendent of Streets was instructed to plank between the cylinders at the west end of the Aliso-street bridge.

The Council then adjourned till Monday next at 10 a.m.

THAT FUND.

A Saloon-keeper Says They Want to Maise \$30,000.

About a week ago The Times published an article to the effect that there was a movement on foot to organize the saloon men and to raise a fund of \$10,000 for campaign purposes in the city election. Not withstanding that this publication was made on the authority of a well-known First-street liquor man, it was very vigorously denied by the saloon-keepers and their friends and advisers, who insisted that there was nothing in it, which denial was backed up by the Democratic organ editorially stating that the whole thing was "evolved from the inner consciousness" of the reporter-i. e., made up out of whole Chief of Police asking for the appointment of 26 extra policemen, one for each precinct, to serve on election day.

The number was corrected to 22, the proper number of precincts, and a motion to that effect was lost by a vote of 9 to 1. Mr. Mathews voting in the negative.

The Police Commissioners reported that the drivers of the patrol wagon received only 800 a month, and recommended that their pay be raised to \$80, the same as regular patrolmen. Mr. Barrett moved that the recommendation be adopted, and his mortion was deferred by to 2. Messrs. Lovell and Mathews voting in the negative.

A resolution was read, drawn up by the Cliy Attorney, declaring the poles of the Electric Railway Company a misance and instructing the Street Superintendent to have them removed.

On motion of Mr. Book, action on the report was deferred for one week.

Mr. Barrett announced that the Electric Railway Company a misance and instructing the water properly. The motion was carried unanimously.

A TISELY DISCOVERY.

Mr. Barrett announced that the election ordinance now being published contained a radical error in that precinct C of the First Ward was assigned the judges and polling place belonging to precinct D, and vice versa.

The City Attorney stated that the ordinance could be amended, if done in time for the proper number of times of published contained in the subject of the said that the Los Angeles liquor men were going to raise \$80,000 (a very marked increase since last week) to make the fight in the said that the Boaling place of precinct Ds and politic place of precinct Ds and politic place of precinct of the the southern Hotel, and of precinct Ds and politic place of precinct of the southern Hotel, and of precinct Ds and politic place of precinct of the southern Hotel, and of precinct Ds and politic place of precinct of the southern Hotel, and of precinct Ds and politic place of precinct of the southern Hotel, and of precinct Ds and politic place of precinct of the southern Hotel, and of precinct Ds and politic place of p cloth. FOR BURGLARY.

John Fitzgerald Convicted — Will John Fitzgerald, who, with William Smith, alias Wiley, was arrested in September last for burglarizing a room in the New England House and stealing a suit of clothes, was yesterday tried and convicted before Judge Cheney of burglary, the jury being out only a few minutes. The defense introduced a deposition from Wiley, who is now serving time in San Quentin, saying that he committed the burglary unaided, and that Fitzgerald knew nothing about it, and merely took the clothes to sell. The story did not have much weight, for when Detective Metzler testified, who worked up the case, that he had caught Fitzgerald with the clothes in his possession, and told the conflicting stories that he made up to account for having them, it knocked out the deposition and Fitzgerald will go up to keep his partner company.

Sneezing Catarrh.

The distressing sneeze, sneeze, sneeze, the acrid, watery discharges from the eyes and nose, the painful isflammation extending to the throat, the swelling of the mucous lining, causing choking sensations, cough, ringing noises in the head and splitting headacheshow familiar these symptons are to thousands who suffer periedically from head colds or influenza, and who live in ignorance of the fact that a single application of Sanyrond's Radical Cure for Catarra will afford instantaneous relief.

But this treatment in cases of simple Catarra gives but a faist idea of what this remedy will do in the chronic forms, where the breathing is obstructed by choking, putrid mucous accumulations, the hearing affected hacking cough gradually fastening itself upon the deblitated system. Then it is that the marvelous curative power of Sanyrond's Radical Cure manifests itself in insiantaneous and grateful relief. Cure begins from the first application. It is rapid, radical, permanent, economical, safe.

Sanyrond's Radical Cure consists of one qottle of the Radical Cure, consists of one quelie of the Radical Cure, consists of one quelie of the Radical Cure, consists of the catarral a Solvent and an Improved Instance of the Radical Cure on site of the Porter and an Improved Instance of the Radical Cure on site of the Porter and an Improved Instance of the Port LER: price \$1. JOHNNY BULL had a Minister. . Vere is dot Minister now?

THE dog-catching season in Pasadenais over, and the Town Marshal has gone into business as a dealer in other kinds of meats.

In the next Congress there will be no Greenbackers, no Independents, no Prohibitionists-nothing but straighthaired Republicans and hopeless Democrats. The side-shows will be deserted and their tents struck.

THE St. Louis Republic is very mad. It speaks of "Gov. Hill of New York as a knave and a demagogue, and at the same time as a Democrat But some 20,000 Democrats in the State of New York voted in a way to indicate that they considered Hill a better Democrat than Grover Cleveland. "How high is dot?"

THE New York Mail and Express each day heads the first column of its editorial page with a selection from What specific application to current affairs some of these quotations have is not always apparent, but the text of a recent day voices the feelings of several million Republicans: "I have fought the good fight, I have finished the course, I have kept the

A curious complication has arisen in regard to the official returns from ond district of Prince George's county, Maryland. After the votes were counted, one of the judges, through ignorance put the tally sheet into the ballot box, and locked it up, and now the able judges are "up a stump," not knowing what to do to get out of the dilemma. This is rather more brilliant than the country merchant's fashion of tearing the leaf out of his account-book when a granger settles his bill.

THE race for the Republican nomi nation for the Mayor's office appears to be rapidly narrowing itself down to a contest between Mosher and Miles The latter and his friends-some of them "fool friends"—are very active, but the former has influences at work in his favor which it will be next to impossible to overcome. Those influences are legitimate, and not of recent origin. They consist of the firm hold Mosher has long held upon the people of all classes, among whom his ac quaintance is wide and favorable and his standing good.

The convention will decide

to stand for the Mayoralty, the solicita tions coming from a high class of citi-zens, and in a manner altogether creditable to the Judge. He has steadily refused, in private, to enter the race public announcement that he is not only not a candidate, but would refuse the nemination if tendered to him. He will give his support to the best Republican who can be named for the place.

THE banquet tendered last evening to Gen. Nelson A. Miles by the Board of Trade and citizens, at the rooms of the California Club, was a pleasant and interesting episode in his life among the people of Los Angeles. Our people entertain a high opinion of this gallant soldier and cultured gentleman, and they expressed it last night—so far as it could be expressed by the representative citizens present at the entertainment-in a marked way. The Genera expressed his appreciation in manner and in words happily chosen. He goes today to his new and higher command the Military Division of the Pacificand carries with him the good wishes of this people. May health, honor and success always attend him!

Touching the subject of harbor work at and about San Pedro, which has recently been given a fresh start by the action of our Chamber of Commerce, we note with calmness a dispo sition on the part of San Diego and National City to rise up on end and howl in old-time fashion. Why these tears, gentlemen? What's the matter with San Pedro harbor? Or, rather, what will be the matter with it after the expenditure thereon of say four millions of Uncle Sam's money? The improvement will be worth the cost; worth it to all Southern California. And San Diego, whose bay is already perfect, can go on all the same, reapng whatever commercial harvest may fall to her share. She is welcome to all the business that she can win-and the quantity will not be small in the prosperous years to come. Let us have peace; let us all go in for the Old Nimrods thereabouts are camping on Flag, also an appropriation. Sabel

Strange, Even Startling, Statistics

In writing up the resources of a country, there is nothing more valuable than well-arranged statistics. They produce more impression on sen-sible men than pages of florid, general descriptive matter. To make them of value, however, the figures must be accurate. Otherwise they are worse than useless.

instance of the latter class of statistics may be found in an issue of a monthly journal, devoted to the resources and attractions of this section, called the "Southern California Ex-cursionist," published in this city. The issue in question is that for last July. In it we are informed that "the shipments from Los Angeles last February consisted of the following

articles." Then we have:
"Beans, 373,460." Three hundred
thousand what? Beans? That would make perhaps a thousand pounds-not a very large aggregate. Or is it centals, or pounds, or sacks, or tons, or bushels? Quien sabe?

"Canned goods, 2200." Cans, or boxes?

"Fruit (green citrus), 2,128,030." Is this oranges and lemons, or boxes of them?

"Miscellaneous, 46,060." That ought to settle the matter with a doubting immigrant, thirsting for information.

"Nuts, 570." This would make about three pounds of hazel nuts, or possibly a pound and a half of walnuts. Perhaps it was cocoanuts, or nuts for screwing on iron girders.

"Raisins, 37,330." They wouldn't make many plum puddings.
"Wool (grease), 22,320." This may be pounds, or centals, or bales, or carloads. "You pays your money and

takes your choice. Supposing we pass over these statistics as sins-or errors-of omission, we stumble, in the next paragraph, on some remarkable figures, which cannot be classed under the same head. They are sins of commission, with a vengeance. We are told that the shipments last year from Los Angeles

county consisted of: Honey, \$800,000 (!): hops, \$1,000,000 (!!); fisheries, \$1,000,-000 (!!!); vegetables, \$2,000,000 (!!!!); wool, \$6,000,000 (just about the total product of the State); barley \$12,000,000 (we only raised 2,000,-000 bushels, and had scarcely enough for home consumption); orchard products \$20,000,000 (pretty good for less than 20,000 acres of bearing orchard). Next comes "mining product, \$21,000,-This is a staggerer. Wonder whether it is iron, or coal, or silver, or gold, or asbestos. It's wonderful how they moved it all out of the country. The iron manufacturers of this city, without regard to politics, express themselves as entirely satisfied with the election of Harrison. Some who voted for Cleveland say they believe the success of the Kepublican ticket will prove to be the best for the Industrial interests of this section, as it sectles tariff agitation for four years at least. Two months ago a syndicate of Boston capitalists agreed with certain gentlemen of this city to invest \$1,000,000 in manufacturing in this district if Harrison was elected. Today they telegraphed that they would comply with their agreement, and would be in Birmingham next week.

The investment of a million dollars in manufacturing, contingent upon Harrison's election, "means business," and this published purpose to carry out an ante-election promise proves that it was not "campaign claptrap."

THE CATTLEMEN.

Legislation Asked by the Convention

at Chicago.
CHICAGO, Nov. 20.—The annual meeting of the National Cattle-growers' Association began here today. In a paper read by Hines of Michigan, member of a committee appointed to investigate the contagion of Texas fever, it was recommended that the association instruct its legislative committee to ask Congress to enact that all railroads or other transportation companies shall transport southern cattle from one State to another between the first day of March and the first day of December of each year, only in cars or compartments labeled or branded in plain, distinct characters, "For transportation of cattle from south of 30th parallel of north latitude only," and that they shal! be yarded and led and fed only in yards distinct and apart from northern cattle and that are branded and lettered similar to cars and compartments. The committee also recommend the enactment of uniform legislation by various States regulating the transportation of cattle and their care in stock yards.

The afternoon session was opened by Dr. Ed E. Salmon, superintendent of the Bureau of Animal Industry, who, in the course of his report, said that 274, 255 head of cattle had been inspected in search of pleuro pneumonia during the year. Of this number 2330 were found infected, and were slaughtered; also 4778 head of cattle which had been exposed to the disease were killed. In a majority of the cases the disease had been entirely eradicated.

The Committee on Resolutions roported favorably the resolution was adopted advocating the enactment of a national inspection law, providing that it shall be unlawful to transport from one State into another State or foreign country any beef, pork or mutton to be used for human food which has not been inspected alive at the slaughtering place by United States inspectors and found healthy, and that a special bureau of inspection should be created in the Department of Agriculture.

The Committee on Resolutions made a favorable report on other matters presented at the morning session, and a resolution was adopted approving the exhibition of Americ of the National Cattle-growers' Association began here today. In a paper read by Hines

The following resolution, relating to the bruising of cattle in shipment, was unanimously adopted.

Resolved, that we, as cattle-growers and shippers, realizing the great suffering of cattle and loss to shippers by bruised and injured meats, caused by shocks in cars while in transit, believe it opportune, and even our duty, to say to the great railroads that we are inclined to give our patronage to such companies as equip their freight cars with such brakes and couplings as will prevent suffering to stock and loss to owners. BASE-BALL.

The National League in Session Changes in Rules.

NEW YORK, Nov. 20.- By the Associated Press.] The National Base-ball League met here today in executive session. The joint committee of the league and American Association on rules has completed the largest part of its work. An endeavor was ade by a few delegates to reintroduce the high and low ball system, but the majority were against it and voted it down.

high and low ball system, but the majority were against it and voted it down.

One of the most important subjects discussed was the position of the pitcher. During the past season some players complained that the pitcher was not far enough away from the batsman, and that a position three or four feet back would be more suitable. A motion to that effect was voted down.

Since it was decided that an umpire should stand behind the pitcher he has interfered with rather than helped the batsman. When the batsman has hit aftir ball, sending it over the pitcher's head and hitting the umpire, he has no allowance and is compelled to run. The pitcher has only to stoop and pick up the ball in order to throw him out at first. To remedy this the committee decided that a struck ball constituted a base hit and gives the batsman his base when he hits the umpire.

In order to improve the order of pitching, the committee has reduced the balls to four for the next season. The three strikes remain as usual. The rule regarding foul tips has been abolished, and hereafter a man will be allowed to run on them.

At the evening session it was decided to allow each club the privilege of having on the grounds a tenth player, In full uniform, ready at the end of an even inning to take the piace of any player. This man would be in addition to the substitute who has always been allowed to take the place of any player.

An attempt to introduce a new rule, providing that a player who runs over second base should not be declared out was voted down.

base should not be declared out was voted down.

At 9 nm, the committee met in conference with the scores of the association, to embody in their report tomorrow to the convention suggestions about scoring changes given by newspaper men. The mala question discussed was the simplification of tabulated scores. It was generally agreed that the stolen-base column be done away with, and its record included in the summary. Byrne suggested that a stolen base should be credited when a player succeeded in securing the base after a fair ball caught on the fly was generally approved. Adjourned.

KNIGHTS OF LABOR.

The Order Still Ruled by the One
Man Power.

INDIANAPOLIS, Nov. 20.—[By the Associated Press.] That Fowderly still has control of the Knights of Labor Convention was shown this morning when the Committee on Law submitted a report recommending amendments in accordance with Powderly's recommendations. It is intended to carry out the "one man power" which he advocated, and provide for a general master workman, worthy foreman, general secretary-treasurer, general director, woman's work, a general executive board, to consist of four members, beside the general master workman, and the General Cooperative Board, to consist of two members, beside the General Executive Board and General Cooperative Board will be taken from the floor of the General Assembly, and when elected serve two years. This is a reduction of two members in each board, besides a union of the offices of secretary and treasurer. But the place where Powderly's influence most appears is in the article which provides that the general master workman shall be chairman ex officio of the General Executive Board, and shall, as soon as practicable, submit to the General Assembly the names of eight persons, from which the General Assembly shall select four members. This will be done as soon as possible, and at the same session at which the general master workman is elected.

the Committee on Law with minor changes of the constitution. Contrary to the recommendation of Powderly, the time of meeting is unchanged.

The general master workman shall herefire ill all vacancies on the board by appointment, this being a new power added to the office. It is now proper for any member of the General ExecutiveB oard to approve the report of the secretary-treasurer, although that was formerly permitted only to the general master workman. A general assembly so desiring may hereafter declare vacant any place on the board, and it can do so without at the same time expelling the officer so removed. Bdfore appointment organizers must pass a proper examination. This same committee reported approval of Powderly's denunciation of the provisional committee.

The Mileage Committee reported the total mileage of the General Assembly to be paid \$7593. By formal vote all decisions of the general master workman since the General Assembly a year ago were approved.

Since you have refused to give me an opportunity to defend myself, I now publish a few of the charges I made, and I defy your, or those whom you sustained by your votes, to prove them false."

He goes on to enumerate the charges already published. Barry proposes to agitate until the General Assembly of the Knights of Labor adjourns. He will then send out his organizers and look after the formation of his new order, who how lil be called the "Brotherhood of United Labors."

By Telegraph to The Times.
INDIANAPOLIS, Nov. 20.—|By the Ass ated Press.] The President-elect put in the day, which was cool and pleasant here, at work in reducing his stack of unan-swered letters. There seems to be but lit-tle appreciable decrease in the voluminous correspondence daily received, and hun-dreds of congratulatory letters still con-tinue to arrive hur gradually the comtime to engranuatory reteers still com-plexion of his mail is changing from con-gratulatory to solicitory, and applications for office are daily growing more numerous. It is Gen. Harrison's present intention to endeavor to acknowledge the receipt of all letters of a congratulatory nature and tele-

endeavor to acknowledge the receipt of all letters of a congratulatory nature and telegrams. He again requests the press to convey his thanks and serve as a friendly medium to explain his inability to separately acknowledge the receipt of so many congratulations. No small portion of the General's mail at present is from the South. Miss Sanger, who has acted as his faithful amanuensis since the day of his nomination, left for Europe today. Mr. F. F. Libbott of this city, stenographer to the President-elect, succeeds Miss Sanger.

Among the numerous other letters answered by Gen. Harrison today were 44 replies to parents who had Informed him that they had named their babies "Benjamin Harrison." With one or two exceptions these namesakes were all born since Gen. Harrison's election. The exceptions were two sets of triplets (boys), born shortly before election, the parents in each instance naming one for Gen. Harrison, one for President Cleveland and the other for the father. An acknowledgment to the parents of a third set of triplets, similarly named, was made a couple of weeks prior to election.

Mrs. Harrison is also in receipt of numer-ous letters, staing that several "Carrie Harrisons" have been christened since election day, and to all such communica-tions she promptly replies, but the numer-ous applications and intercessions for office that are being mailed to her receive no at-tention, and are consigned to the waste-basket. It may be stated that this rule has been adopted by Mrs. Harrison, and will be impartially observed. No communications of a political character will receive atten-tion.

Impartanty observed. No Sommunications of a political character will receive attention.

While the President-elect was reading his mail this afternoon, he came across a blank circular, sent out by a Philadelphia mewspaper, offering a prize of \$60 to the person who would fill in the correct names of Gen. Harrison's cabinet. As he read, he remarked, "I think I could win that prize, but I won't try for it." Cabinet-building continues to occupy the attention of political circles, and one can hear cabinet talk everywhere except in Gen. Harrison's house. If the President-elect has progressed far enough to give this important subject even initiatory consideration, he keeps his own counsel, absolutely inviolate, for his most intimate personal friends are known to have stated that they know nothing whatever upon this subject.

Among Gen. Harrison's prominent out-of-town callers today were Gov-elect Hovey and Col. George C. Findley of Lafayette, ex-chairman of the Republican State Committee. Gov-elect Hovey said that he passed a very pleasant hour with Gen. Harrison. Muthal congratulations opened their visit, and the eamoalgn was talked over.

Harrison and Mr. Clarkson, however, held quite a long talk alone in the front parlor, while other gentlemen and the ladies chatted in the adjoining parlor. Mr. Clarkson was requested by Gen. Harrison to stop over on route home and make him a visit, and while it is thought that the visit partock very largely of a social character, there are good indications that politics were somewhat discussed, perhaps even to the extent of Cabinet suggestions. Clarkson states that he had much to say to Gen. Harrison about the business of the National Committee, but declined to give any expression of the political tendency of his pleanant visit.

opening address.

The address of welcome on the part of the Chico was delivered by Rev. E. Graham. After the preliminary exercises the organization was completed by the election of G. M. Gray of Chico and William Johnston as vice-presidents, and B. M. Lelong and E. J. Wickson secretaries. A committee on order of business was appointed.

The following dispatch was sent to the National Grange now in session in Topeka:

"The fruit-growers of California, in convention assembled, send you cordial greetings and, bid you godspeed in your work of educating the tillers of the soil and advancing their interests, and invite you to hold you next annual session in California."

At the afternoon session the Committee on Order of Business reported a programme providing for two meetings daily until Friday, and subjects covering nearly the whole range of fruit business are included. On Thursday and Friday afternoons there will be an excursion into the country around Chico, and on Thursday evening the citizens of Chico will tender a banquet to members of the convention.

This afternoon's meeting was almost wholly devoted to a discussion of insect pests and the remedles therefor.

## THE PARNELL INQUIRY.

A Newspaper's Charges Against the Court-More Testimony. London, Nov. 20.—[By Cable and Asso-clated Press.] The Parnell Commission rewebster, counsel for the Times, complained of the difficulty experienced in bringing witnesses from County Kerry. He called the Jugge's attention to an article in the Kerry Sentinel (Edward Harrington's party), which attend that the judges composite Kerry Sentinel (Edward Harrington's paper), which stated that the judges composing the Parnell Commission were showing signs of measles now, although at the opening of the inquiry they appeared to be spotless, and that the judges were creatures of a conspiracy entered into by the Government and the Times, and were manifestly unable to veil their prejudices.

The Attorney-General appealed to the Court to take action on the matter, as such publications tended to defeat justice and amounted to the grossest contempt.

Presiding Justice Hannen and the Attorney-General agreed to this, and the matter stood over.

Examination of witnesses was resumed. Farmer Culloly of Castie Isemand, County Kerry, testified that, because he served notices on tenants in 1882, two men visited him, and one of them struck him with a spade. The other shot him in the leg. The leg had to be amputated. He was afterward boycotted.

On cross-examination, he said the quarters of the nearest branch of the league was six miles distant from his farm. He considered the rents throughout Kerry too high. He denied that the two men who attacked him were relatives of a servant-girl whom he had wronged.

Constable McCarthy testified that he searched the house of a man named McMahon, who was treasurer of a branch of the league, and found a number of papers. Other witnesses from Kerry were then examined, all of whom attributed the outrages in that county to the instigation of the league.

A laborer named Williams testified that he adoen posted in various places offering 2500 to any one who would shoot him and his employer, who had taken an evicted farm. On cross-examination, however, none of the witnesses succeeded in connecting the league with any of the outrages they had referred to.

Sir Charles Russell then read an article from the Kerry Sentinel denouncing the outrages.

# LETTERS TO THE TIMES.

LOS ANGELES, Nov. 19.—[To the Editor of THE TIMES.] Now that our national election has closed, giving to the Republican party a splendid victory, and once more we are called upon tory, and once more we are called upon-to vote in our forthcoming municipal election, I confess, in view of the too many curses which have taken hold upon our beautiful city under the past local administrations, I like the citi-zens' reform movement, which (dis-claiming any desire to organize a poli-tical party) has but the one aim, namely, to unite the better elements of all parties in a common effort toward municipal reform; to place in the public offices to be filled, for the securing of the aim desired, "clean honest and froncable men." As an humble member of this municipality, humble member of this municipality, and earnestly wishing for its best interests, I think this movement for reform wise and justifiable in view of the existing grave evils in our midst, and I hepe and pray its aim may be attained. Its "declaration" which it presents to the men who may be put up as party candidates is quite proper, and ought to meet with a hearty agreeing response from every side. Let us read it again: 'I agree, if elected, to use every lawful means within my power to in every possible way restrict, and as soon as possible to suppress, the saloon, the gamblinghouse, the opium den and the brothel, and in every way to further the ends and in every way to further the ends of good, clean, efficient government."

Mr. Editor, this declaration clearly shows the ideas of the reform movement as to what constitutes a good official, and is it not a conservative and practical appeal to reason and common sense? I am heartily in the belief that you think so, from your editorial of yesterday, and judging also from your splendid aggressive policy in the past against the saloons and gambling dens of our city. Greatly is it to be desired that this and in every way to further the ends and gambling dens of our city. Greatly is it to be desired that this citizen's reform movement will awaken both the old parties to a spirit of emulation in the selection of good men only for the city offices. May power attend your editorials as you press home upon the leaders of the parties the importance of such selections.

Yours respectfully,
BRAINARD SMITH.

"Spread the Gospel." Los Angeles, Nov. 16.—[To the Editor of The Times.] "Are religious missions a failure?" is the question asked, and it is a most important one. But how can they be if, portant one. But now can they be it, in sustaining them and sending out missionaries to heathen in foreign countries, we are obeying the command of the Master, "Go ye into all the world and preach the gospel to every creature." Canon Taylor's figures, as given in The Times, show a great outlay of money with apparently small results. It might help the Canon's faith to consider how long it has taken to raise the inhabitants of Great to raise the inhabitants of Great Britain and all the Anglo-Saxon race from a state of barbarism and idolatry equal to that of any heathen country of the present age.

What the Bible has done for us it

can do for them. Let us send the gospel to the heathen, believing that it will prove as the leaven that shall know the Lord."

know the Lord."

In regard to the good a similar amount of money expended in the slums of our large cities might have accomplished, perhaps the Master would say, "This ought ye to have done, and to leave the other undone."

A Secret of Remarkable Value to the Iron Industry.

Iscientific American.

The United States Secret Service officers at Cincinnati, O., have unearthed a great invention. For three years past people of Newport, Ky., have been greatly exercised over some mysterious doings in an old building on the outskirts of town near the mills. Anyone approaching the premises was at once ordered off. It soon got rumored around that it was a den of counterfeiters; that at night thieves and highwaymen remelted stolen jewelry, and suspicious-looking experts were noticed to enter the old works. Slag, containing traces of some brilliant metal, was found as evidence. This reaching the ears of the United States authorities, Thomas Coyne of the Newport Detective Agency, stationed there, was put on the case.

He visited the old works, demanded admission, which was granted to the officer and when he care and when he care and when he care and when he care around the content of the officer and when he care around the content of the officer and when he care around the content of the officer and when he care around the content of the officer and when he care around the content of the officer and when he care around the content of the officer and when he care around the content of the officer and when he care around the content of the order around the content of the order around the officer and the order around the order arou [Scientific American.]

admission, which was granted to the officer, and when he came away reported the mysterious works only a chemical decomposition and analytical study. His visit, however, brought to light the fact that in the old smelting works a chemical process had been per-fected, the brilliant particles of metal gathered off the slag dump be-ing nothing less than pure aluminum, which had been smelted in waterwhich had been smelted in water-jacketed steel retorts, distilled from clay-cryolite, carbon, fluoride fluxes and other ingredients, crucibles being useless to resist the strongbasic fluxes while this metal reduces silicon from the substance of the pot, becoming itself dark gray and brittle in consequence. Mr. Charles L. Hartsefild, of Newport, Ky., the experimenter in question, was seen by your correspondent, and acknowledged that he had made the discovery, based upon the theory of substitution without the use of sodium, obviating the necessity of the usual costly intermediary elements. The importance of such a process can be judged, aluminum being the process can be judged, aluminum being process can be judged, aluminum being the most generally diffused metal upon earth; it has all the beauty of silver, non-tarnishing, non-corrosive, stronger and more lasting than silver, with only one-fourth its weight, while for electro-lating nurposes it is superior to either plating purposes it is superior to either silver or gold. When alloyed, one-tenth of 1 per cent. of aluminum to iron, steel or copper, increases the homogeneous and tensile strength of the metal nearly one-half. The value of this metal is inestimiable, owing to its alloying tenseits with our metal. alloying tenacity with any metal.

THE ILLINOISANS.

A Successful Entertainment Last A Successful Entertainment Last I vening.

The Illinois Association held the first of its weekly receptions for the ensuing season at Pischer's Academy, No. 229 South. Spring street. The entertainment was free, and the room was crowded to the doors. The audience was a pleasant and goodnatured one, and, during the pauses in the exercises. the room was filled with the buzzling of a hundred tongues.

The following programme was executed

Owing to the crowd present and the hurry of the occasion, the comedietta Stephed Treasures was deferred to another evening. President Royt also announced that Maj, Arbuckle had been under the weather since November oth, and could not favor the audience with a song, as he had intended.

Despite these drawbacks the evening passed very pleasantly, and during the recess and after the exercises the officers sold lots of season tickets for the remainder of the entertainments at \$1 each. There will be no more free shows for the Illinois folks this season.

ST. PAUL'S GUILD.

Entertainment for the Benefit of the

Sunday-school.

Last evening a very enjoyable concert was given at St. Paul's Parish hall for the benefit of the Sunday-school. The affair was under the auspices of the Young en's Committee of St. Paul's Guild.

Was finder the abspects of the Todas, Women's Committee of St, Paul's Guild.

The following ladies and gentlemen participated in the programme: Misses Kilburne, B. Johnson, Ida M. White, Betts, A. O. Long, Paule, Cooper, Guthrie and Moore, Mrs. J. W. Mitchell, Mrs. Willigrod, Messrs, S. W. Compton, W. E. R. Fitzgerald, John W. Mitchell and the Duke of Milpitas.

The candy stand was presided over by Miss Mamie de Van and Miss Hickson; the ice cream by Miss Belle Schackeford and Miss Mitchell.

One of the most interesting features of the entertainment was a duet from Pattence, "Prithee, Pretty Maiden," acted and sung by Miss Ida M. White and Lord Wilberforce, I. B. Wood presided. The financial results were most satisfactory.

Next Sunday evening there will be another mass-meeting, for women only, at Fort-street Church, and also one at University Place. The subject for consideration will be "The Duty of the Hour." Mrs. R. B. Rydges will speak at Fort-street Church and Mrs. H. A. Watson and others at University Place. The young ladies are particularly requested to be present. On the same evening there will be a mass-meeting for men at the Pavilion. These meetings will be of unusual interest and a large attendance is desired.

To Be Reinstated.

It is probable that Officer Wright of the Humane Society, who was dropped from the police roll at the last meeting of the the police roll at the last meeting of the commission, will be reinstated today. Mr. Wright has been an efficient officer and has done much good in his line of work, and the members of the Humane Society are very anxious to have him retained. The officers of the society are confident that when the matter is investigated it will be shown that Mr. Wright has been cone a great injustice, unwittingly, by the board, which they will repair as soon as all the facts in the case are made known.

What is this "nervous trouble" wit. which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknow—today it is as common as any word in the English language, yet this word covered to the property of the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called billousness, and all are caused by troubles that arise from a diseased condition of the liver, which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel, is compelled to pass it off through the system, causing nervous troubles, malaria, billour fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are maryelous.

## DEATH FROM A FALL.

Inquest . the Body of Nicholas Delmont. Coroner Meredith yesterday morning held an inquest on the body of Nicholas Delmont, a plasterer, who died at his home in the Vernon district Sunday night. Delmont had been sick for three or four weeks, and when some friends of his called at his e they found him lying on a pile of straw, part of his house being used for a stable, and unable to get up. He was picked up and put in bed, and, in answer to questions, stated that he had been climbing up to get some hay for his horse when he missed his footing and fell, hitting on his head and raising a large lump. He did not want a doctor, but one was summoned anyway, and stated that the man could not possibly live. He died that night, when the body was removed to Orr & Sutch's and prepared for burial. The doctor gave a certificate that death was caused from concussion of the brain, and nothing more was thought of it until Monday afternoon, when one of the friends of the dead man came in and insisted on an inquest, which was held, as above stated, yesterday morning, the jury, after hearing the evidence, returning a verdict of death from natural causes. The funeral took place yesterday afternoon under the auspices of the Plasterers' Linkon. straw, part of his house being used for a noon under the auspices of the Plas 'Union.
